GRAY FADED HAIR, OR BEAUTIFUL DARK, ATTRACTIVE—CHOOSE, MADAM!

SAYS SAGE TEA MIXED WITH SULPHUR RESTORES NATURAL COLOR AND LUSTRE

Gray, faded hair turned beautifully dark and lustrous almost overnight. It is a reality, if you'll take the trouble to mix sage tea and sulphur, but what's the use, you get a large bottle of the ready-to-use tonic, called "Wyeth's Sage and Sulphur Hair Remedy" at drug stores here for about 50 cents. Millions of bottles of "Wyeth's" are sold annually, says a well known druggist, because it darkens the hair so naturally and evenly that no one can tell it has been applied.

You just dampen a sponge or soft brush with Wyeth's Sage and Sulphur

and draw it through your hair, taking one small strand at a time. Those whose hair is turning gray, becoming faded, dry, scraggly and thin have a surprise awaiting them, because after just one application the gray hair vanishes and your locks become luxuriantly dark and beautiful—all dandruff goes, scalp itching and falling hair stops.

This is the age of youth, gray-haired, unattractive folks aren't wanted around, so get busy with the Sage and Sulphur tonight and you'll be amazed at your youthful appearance and the real beauty and healthy condition of your hair within a few days. Inquiry at drug stores here shows that they all sell lots of "Wyeth's Sage and Sulphur" and the folks using it are enthusiastic.

KEARNS STATES HALIFAX NEARING BIG ORE BODY

INFORMS SALT LAKE PAPER THAT TONOPAH LOOKS LIKE ANOTHER VIRGINIA CITY

Thomas Kearns, vice president and director of the Halifax Tonopah company, who has been visiting the property in Nevada, returning yesterday morning by way of San Francisco and Los Angeles, stated to the Tribune of Salt Lake Friday night that Tonopah looked like another Virginia City. The whole district, he said, was in splendid condition, and three or more new producers have been brought in to the successful list within the past few weeks. He looks for new mines to be discovered both east and west of the present productive zone, and he is more confident than ever that the Halifax will be one of these new producers.

The Halifax lies adjoining the Belmont property to the east. The Belmont has drifted upon its ores to within a short distance of the Halifax lines, while the Halifax has drifted toward the Belmont on the same vein and in the same trachyte formation in which the ore occurs. The Halifax has good values, but the main Belmont ore body has not as yet been gained. The workings are hot, and an arrangement has been made with the Belmont company whereby the Belmont and Halifax drifts making towards each other will be continued and connected at the line between the two companies. This will bring about ideal ventilation for both properties. The Belmont has drifted towards the Halifax on the 1300-foot level, corresponding with the 1400-foot level of the Halifax.

The surveys for this connection are being made at the present time, and it will not take to exceed 60 days to bring about the meeting between the two respective workings. The Halifax management also is working on the 1000-foot level, where fine values are had, but the large body of ore has not yet been encountered. The management is continuing shaft sinking, the shaft now being below the 1525-foot level. This will be continued until it drops directly into the vein and the ore, which will not be much deeper than the present depth.

The relations between the Belmont and Halifax companies always have been very cordial and they continue so, as is evidenced in the agreement to connect the workings of the two at depth, and this is a spirit that has prevailed in the Tonopah camp from the earliest day generally.

San Francisco, said Senator Kearns, is lively; several new buildings are being erected and the effects of the coming exposition are already to be noticed there. Los Angeles he found in first class shape and with no one in any degree discouraged at the frost recently experienced that destroyed some of the fruits of the lowlands.

EXTENSION SENDS OUT 23 BARS OF SILVER BULLION

BI-MONTHLY CLEANUP HAS APPROXIMATED VALUE OF \$36,000

Twenty-three huge bars of silver bullion were shipped by the Tonopah Extension this morning to the Selby company. The consignment weighed 31,672 pounds, or over a ton and a half, and was approximately valued at \$36,000.

The shipment was the result of the first bi-monthly cleanup to be made in February and is about the average in value when compared to former shipments. At the steady rate of shipments it will not be long until the Extension will have a neat surplus in the treasury that can be used for the payment of dividends, notwithstanding the extra expense incurred through the sinking of the mine shaft.

If you should hear, incidentally, that your favorite store had had an unadvertised special sale of something you've been wanting to buy, you'd feel that it had not protected your interests—wouldn't you?
